

ESILAW 2007.1

Release Notes

© 2006 ESI Software, Inc – All rights reserved.

New Simplified Menu for 2007.1

- ESILAW 2007.1 offers a new, simplified menu interface with enhanced graphics and navigators throughout. The 2007.1 menu is disabled by default for existing ESILAW users, but can easily be enabled in System Settings by changing your menu from Classic ESILAW to ESILAW.
 - Re-organized to group menu items by type and simplify access to those items.
 - New pulldown menus, sidebar, and navigators.
 - New pulldown menu options include File, Lists, Clients/Contacts, Inquiry, Enter Data, Billing, A/P, G/L, Month/Year-end, Reports, Maintenance, Settings, and Help
 - New Sidebar menu options include Navigator (main Navigator), Clients/Contacts, Inquiry, Time, Disbursements, Trust, Billing, Receipts, Accounts Payable, General Ledger, Month/Year-end, Reports, Maintenance, and Exit.
 - Navigators have been added for each new sidebar option.
 - Navigators are enabled by default. Navigators can be disabled independently by selecting the Hide option in the top right corner. They can be re-enabled through User Settings.
 - A brief explanation has been added to most navigator menu links to further simplify the interface.

Conflict Search

- Conflict Search now offers a new option called 'Exact Match', which is intended to narrow down conflict search results. By enabling 'Exact Match' your search will only return results identical to the specified keyword or phrase.

Follow Me Help

- A new tool called Follow Me Help has been introduced throughout ESILAW, specifically in the most commonly used features. When enabled Follow Me Help provides learn-as-you-go instruction on how to use the specific feature.
 - Follow Me Help can be enabled or disabled using the System Settings > Follow Me Help option and at the user level (if enabled) through User Settings.
 - Follow Me Help is only available when using the new ESILAW 2007.1 menu (not available for the Classic ESILAW menu).

Enhancement & Bug Fixes

- Enhancements to ICBC Billing and TAF (Canada only)
- Additional minor enhancements and bug fixes.
